DATA PLATFORMS LIVE 2018

April 11-13, 2018, Phoenix, AZ

Request to Attend Conference

The Data Platforms Conference in Phoenix, AZ on April 11-13, 2018 is a great opportunity for me to engage with thought leaders and experts in the DataOps space. I've reviewed the details for this event and believe that the knowledge and connections I would gain would be highly beneficial to our organization. For example, this event will allow me to:

- Learn best practices from experts at Facebook, Linkedin, eBay and Twitter who have built scalable and self-service data platforms enabling mass adoption within their organizations.

- Enhance existing and acquire new skills by attending workshops and hands-on technical training that cover the latest trends and technologies in the industry. I will share what I learn with other members of our team so we will all benefit from this event.

- Participate in networking with peers from other companies facing similar challenges, all while learning tips and best practices that I can bring back to implement within our organization.

I am seeking approval for the registration fee and travel expenditures. If you'd like to learn more about the Data Platforms Live 2018, visit **www.dataplatforms.com**.
Please let me know if you have any questions or need further clarification. Thank you!
